

Vision

To be a premier Institute in the country and region for the study of Engineering, Technology and Management by maintaining high academic standards which promotes the analytical thinking and independent judgment among the prime stakeholders, enabling them to function responsibly in the globalized society.

Mission

To be a world-class Institute, achieving excellence in teaching, research and consultancy in cutting-edge Technologies and be in the service of society in promoting continued education in Engineering, Technology and Management.

Quality Policy

To ensure high standards in imparting professional education by providing world-class infrastructure, top-quality-faculty and decent work culture to sculpt the students into Socially Responsible Professionals through creative team-work, innovation and research.

Short Term Goals

- To be a nationally acclaimed centre for Research and Development.
- To be an Incubation center for Techno – Managerial Enterprises.

Long Term Goals

- To evolve into a Deemed University offering viable programmes of relevance for upliftment of rural students and populace.
- To be recognized Internationally as a Research and Development Centre by forging alliances with research organizations, Government entities, industries and alumni.

DEPARTMENT OF CIVIL ENGINEERING

Vision:

To impart knowledge and excellence in civil engineering profession with global perspectives to our students and to make them ethically strong and quality Engineers on foot for construction Society.

Mission:

- To generate a specialized flock of Civil Engineering by imparting training through the state of the art laboratories to eco the nation and society.
- To providing professional civil engineering to find solution to community, regional and global problems and accept new challenges in rapidly changing technology.
- To create competent professionals who are trained in the design, and development of civil engineering systems and contribute leadership towards research & development activities.

Long Term Goals:

- To establish a training, consultancy and testing centre in the department for interaction with local industries.
- To have collaborative programmes with reputed industries and laboratories.
- To establish the department as recognized and well-known research centre in different areas of Civil Engineering.

Short Term Goals:

- To modernise all laboratories and keep them up to date considering the latest requirements and also developments in different areas of Civil Engineering.
- To shape students as industry ready professionals.
- To encourage faculty members to get involved in research programmes leading to award of Doctorial Degree.
- To develop rapport with the professionals of the industries.
- To encourage faculty members to have interaction.

Quality Policy:

To ensure high standards in imparting professional education by providing standard specification of IS codes, top- quality-faculty and decent work culture to mould the students into Socially Responsible Professionals through creative team-work, innovation and research.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Vision:

To generate Competent Professionals to become part of the Industry and Research Organizations at the National and International levels.

Mission:

- To train the students to have in-depth knowledge of the subjects in the field of Computer Science and Engineering
- To train the students with leadership qualities, team work skills, commitment and ethics thereby making them develop confidence for R & D activities and for placement in multinational and national

Long Term Goals:

- To encourage research activities in the department.
- To establish centre-of-excellence for research in computer Science.
- To establish and strengthen Industry-Institute interaction and be industry solution providers.
- To take up sponsored projects from private and government organizations.
- To have more number of publications and patents in the emerging areas of Computer Science
- To create better entrepreneurs in the area of Computer Science and Engineering.

Short Term Goals:

- To strengthen the department infrastructure and human resources.
- To conduct faculty development programmes regularly for skill up gradation.
- To conduct programmes for students to acquire soft and hard skills and inculcate leadership qualities, research orientation and technical skills.
- To conduct continuing education programs and workshops/ conferences for knowledge sharing with outside world.
- To improve academic performance of students using innovative and creative methods of teaching.

Quality Policy:

Department of Computer Science and Engineering strives to ensure quality education as a leader in the Computer Science and Engineering Education by continuously improving academic inputs and educational excellence.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Vision:

Our vision is to develop the department into a full-fledged centre of learning in various fields of Electronics & Communication Engineering keeping in view the latest developments

Mission:

The Mission of the department is to turn out full-fledged Engineers in the field of Electronics Communication Engineering with an overall background suitable for making a successful career either in industry/research or higher education in India and abroad. To inculcate professional behavior, strong ethical values, innovative research capabilities and leadership abilities in the young minds so as to work with a commitment to the progress of the nation.

Short term goals:

- To have an accreditation status for the Department.
- To achieve 100% academic performance of students using innovative and creative methods of teaching.
- To achieve 100% Campus placements for students.
- To ensure faculty and staff development for effective teaching learning process.

Long term Goals:

- To establish centre-of-excellence for research in Electronics and communication engineering.
- To take up sponsored projects from private and government organizations.
- To develop contemporary technology incubators at department level.
- To start Ph.D programs by getting recognition as Centre for Research.
- To have MOU with MNCs in India and abroad for R & D in core and thrust areas.

Quality Policy:

To ensure and maintain a low risk status from planned monitoring, maintenance and improvement of the institutes Quality Framework.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Vision

Impart futuristic technical education and instill high patterns of discipline through our dedicated staff, who shall set global standards, making our students technologically superior and ethically strong, who in turn shall improve the quality of life of the human race.

Mission

To Impart Quality higher education and to undertake research and extension with emphasis on application and innovation that cater to the emerging societal needs of students of all sections enabling them to be globally competitive and socially responsible citizens with intrinsic values.

Long term goals:

- To start Ph.D programs by getting recognition as centre for research.
- To forge strong alliances with MNCs in India for R&D in thrust areas.
- To develop technology incubators at department level.

Short term goals:

- To get an accreditation status.
- To improve the students academic performance to 100%.
- To achieve 100% campus placements.
- To ensure faculty and staff development for effective teaching learning process.

Quality Policy:

To develop highly skilled human resources with the ability to adapt to an intellectually and technologically changing environment with the participative efforts of the management, staff, students and parents.

DEPARTMENT OF MECHANICAL ENGINEERING

Vision:

To equip the Mechanical Engineering students with the best analytical skills in the state of the latest technologies and the best communication skills to meet the Mechanical Engineering manpower requirement both nationally and internationally to respond to the demands of the market which are dynamic in nature.

Mission:

Producing Mechanical Engineers who are exceptionally competent, discipline and have a sense of devotion to their profession by adopting modern teaching techniques to give attention to all the students individually and encouraging development research consultancy and interaction with industries.

Long term Goals:

- To establish centre-of-excellence for research in Mechanical engineering.
- To take up sponsored projects from private and government organizations.
- To develop contemporary technology incubators at department level.
- To start Ph.D programs by getting recognition as Centre for Research.
- To have MOU with MNCs in India and abroad for R & D in core and thrust areas.

Short term goals:

- To have an accreditation status for the Department.
- To achieve 100% academic performance of students using innovative and creative methods of teaching.
- To achieve 100% Campus placements for students.
- To ensure faculty and staff development for effective teaching learning process.

Quality Policy:

To develop highly skilled human resources with the ability to adapt to an intellectually changing environment with the participative efforts of the management, staff and parents.

DEPARTMENT OF H&S

Vision:

Department of humanities & sciences aspires to emerge as archetype pillar of professional prominence in gearing up UG & PG teaching techniques and the cutting edge research in humanities and sciences leading to leverage to the concerned to gain erudition and further to sustain and progress in their chosen field and the world.

Mission:

To prepare students for lifelong learning and responsible democratic citizenship by providing constant thought provoking teaching, tremendous training, relentless research and commendable consultancy.

Long term Goals:

- To improve the department as R& D activities centre.
- To depute the faculty members for the programs like continual professional development and as well as institution.
- To start explore the research activities related to core sciences and their applications to engineering field.
- To be a role model and exemplified amidst the group and others.

Short Term Goals:

- To get an accreditation status
- To improve the student's academic performance to 100%
- To achieve 100% campus placements.
- To ensure faculty and staff development for effective teaching learning process.

Quality Policy:

To ascend and anchor at the pinnacle of state-of-the art transcendental teaching yearning, learning, innovative researching and credible consultancy through exalted procedural formalities of self evaluation and assiduous calibration of improvement.

PRINCIPAL

DEPARTMENT OF MBA

Vision:

To achieve academic excellence and managerial relevance through interaction with the corporate world.

Mission:

To provide students with excellent professional skills by cooperating closely with corporate partners and by exposing them to a dynamic and intercultural business environment.

Long Term Goals:

- To create and sustain a community of learning in which students acquire knowledge and learn to apply it professionally with due consideration for ethical, ecological and economic issues.
- To provide knowledge-based management education to satisfy the needs of society and the industry.

Short Term Goals:

- Establishing clear educational pathways
- Enhance the commitment of faculty, staff and students
- Narrowing achievement gap.

Quality Policy:

To pursue global standards of excellence in all our endeavors namely teaching, research, and consultancy and continuing education and to remain accountable in our core and support functions, through processes of self- evaluation and continuous improvement.
