

## POLICY ON GREEN CAMPUS

“Earth provides enough to satisfy every man’s need, but not every man’s greed”

- Mahatma Gandhi

A Green Campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

Greening the campus is all about sweeping away wasteful inefficiencies and using conventional sources of energies for its daily power needs, correct disposal handling, Purchas of environment friendly supplies and effective recycling program. Institute has to work out the time bound strategies to implement green campus initiatives. These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus.

Objectives:

- Understanding various environmental issues and the need to address them.
- Sensitizing people about the need for protection of environment for a sustainable and healthy future.

Anurag Engineering College has taken initiative to create awareness on Green campus students and staff. To protects its own environment with its green campus initiative and keeps pollution free campus.

Here are some of the initiatives involved in the students of Anurag Engineering College for making green.

1. Switch off the lights or power when not in use.
2. Save energy by using less energy.
3. Using electronics instead of paper.
4. Opening a refectory with a local eco food.
5. Having a place for refilling a water bottle.
6. Special campaigns for students
