ANURAG ENGINEERING COLLEGE (ANRK)

Amartya Educational Society is established in 2001 with an aim of bringing quality engineering education closer to the rural students. The society comprises of inspiring team of academicians, industrialists and NRI entrepreneurs whose valuable knowledge and experience are the guiding factors.The society is running the Institution as a Not-For-Profit Institution.

Anurag Engineering College was established in 2001 and is reputed as one of the most preferred college for Engineering Education within short time. The college has created a resourceful and inspiring academic ambience and world class infrastructure. The college is Private Self Financing Institution.

The college is approved by AICTE,New Delhi and permanently affiliated to Jawaharlal Nehru Technological University, Hyderabad. Our institution is an Autonomous and granted with TEQIP.

ABOUT THE DEPARTMENT

The Department of CSE was established in 2001 with an intake of 60 students in the UG Programme. Right from its inception it is continuously striving to impart quality education and competitive spirit among students for academic excellence. The present intake in B. Tech (CSE) is 180, M.Tech (CSE) is 36. B.Tech CSE programme is accredited by NBA.

The Department is equipped with state of the art computing facilities and experienced staff members and is known for its academic excellence proved by its performances since its inception.

The Department organizes funded Faculty Development Programs (FDPs)/Workshops /Short-term training programs (STTPs) to enhance technical skills of the Faculty and Research Scholars.

ABOUT THE STTP

The main aim of this Short Term Training Programme on "Recent trends in Internet of Things" is to bring together the experts, faculty and researchers and provide a platform for discussion of recent advances in the relevant research areas of Internet of Things (IoT). It is anticipated that these in-depth discussions and talks by the invited speakers will motivate the faculty and researchers to enter into some of the highly fertile research arena. This program takes a deep dive into the concepts of IoT.
